

# Recovery and reform following COVID-19

Mike Meers

Director of Information Communication &  
Technology

# Recovery and Reform

## Objective

To safely restart services post Covid , looking to adopt and adapt innovative practices that supported the system to respond.

## Key Actions

- Contribute to a system wide Recovery Plan to support our patients
  - Emergency Plan for potential second surge in Covid related activity
  - Reduce the Elective Waiting List times for long waiting patients delayed through Covid
  - Understand and mitigate any constraints to enable recovery
- To maintain a Covid secure environment for our patients and staff whilst allowing an increased footfall to our sites.
- To adopt innovation and learning from our initial Covid response
- To support our staff through Recovery with new Health and Wellbeing initiatives
